Subject: Gold King Mine Administrative Record

All

In anticipation of inquiries (FOIAs, etc) on the Gold King Mine Incident we need to start developing our administrative record to establish the fact pattern (i.e. pattern of activities and chronology) and be prepared to respond to inquiries.

I am assuming that most of the historical documents for past work at this site are filed in the Superfund Records Center. If that is the case we need to make sure that documents generated more recently also get filed in the records center. Please look back over the past year and to make sure that this is the case and if not please make getting these documents into SDMS a priority.

If there are others that I have missed that should be on this please pass this on to them and cc Andrea Madigan and me.

Thanks.

Sandy
